

HORSEGARD™

ECO-Stall

NATURAL STALL, BARN & TRAILER
ODOR NEUTRALIZING FOAM

ALL NATURAL FORMULA

ECO-Stall utilizes nature's bioremediation process by augmenting the bacteria inherently present in animal waste with naturally occurring bacteria nutrients that then attack the waste product and convert it into harmless carbon dioxide and water. Lightly scented ECO-Stall will reduce odors, extend the use life of stall bedding and rubber stall pads, reduce the frequency of stall & trailer cleanings and provide a healthier environment for your horse and pets.

- Reduces Odors from Ammonia, Urine/Uric Acid Build up – Naturally
- Creates a Healthy Stable Environment
- Reduces Barn Maintenance & Labor
- For Horse, Goat, Sheep & Kennel areas

Eliminates Odors from Ammonia, Urine & Uric Acid Build-up – Naturally

Bioremediation is the use of naturally occurring microbes to convert waste products into harmless carbon dioxide and water. Because the bacteria that are most effective at eliminating ammonia, uric acid and urea are already present in animal waste, ECO-Stall simply provides essential nutrients to accelerate the natural bioremediation action, eliminating odors in the process!

Safe & Effective

ECO-Stall is an all natural product that is safe for you, your animals and their environment. ECO-Stall meets the U.S. EPA's Design for the Environment (DFE) product standard.

Ideal for Barns, Stables, Trailers, Kennels & More!

Use ECO-Stall to treat horse stalls and trailers to eliminate odors and reduce the animal's exposure to unhealthy ammonia and urea build-up. Also effective at controlling odors caused by goats, sheep, swine, poultry, hamsters & rabbits. Use also to control odors in kennels and litter boxes.

The ECO-Stall Starter Kit (35-4450CV) contains one 32 oz Hand held air compressed foaming sprayer and one 32 oz size ECO-Stall Concentrate in a convenient tip and pour measuring bottle. Ask your Dealer for the ECO-Stall Starter Kit if one is not displayed.

DIRECTIONS FOR USE

Mix one ounce of ECO-Stall Concentrate in 32 ounces of water in a hand held air compressed spray applicator with foaming tip to produce best results. Shake to mix and pump 30 to 40 times to charge the applicator. Evenly apply ECO-Stall foam directly to wet soiled areas, simply covering the spot. No need to over apply product. ECO-Stall will begin working immediately to reduce odors and leave behind a pleasant, clean eucalyptus fragrance. Foam solution will remain active for as long as it remains on wet soiled spots.

Economical ECO-Stall Costs Less than \$.01 per Application!

Product Size	Makes	Applications
ECO-Stall, 8 oz	2 Finished Gallons	Approx. 650
ECO-Stall, 32 oz	8 Finished Gallons	Approx. 2,600

Contains: Water (CAS#7732-18-5) and a proprietary blend of eco-friendly bacteria nutrients (CAS#N/A)

First Aid: If in eyes: Flush with plenty of water for at least 15 minutes. If on skin: Wash with soap and water. If swallowed: Drink water or milk to dilute. DO NOT induce vomiting unless directed by physician.
